Signa's best chance of uncovering the murderer is an alliance with Death himself, a fascinating, dangerous shadow who has never been far from her side. 707973	Hell ship Veitch, Michael	Allen & Unwin Pty Ltd	2018	9781760630843	9plus	For more than a century and a half, a grim tale has passed down through Michael Veitch's family: the story of the Ticonderoga, a clipper ship that sailed from Liverpool in August 1852, crammed with poor but hopeful emigrants - mostly Scottish victims of the clearances and the potato famine. Hoping for a better life in Australia. Three months later, a ghost ship crept into Port Phillip Bay flying the dreaded yellow flag of contagion. But 10,000 years ago is difficult to imagine - what if our calendar were condensed into just 100 days, where each day equals 100 years? How many days ago were the first cities built? When did the population explosion happen? When did we decide to write things down and when did books appear? Did writing change the way we share ideas? This book asks questions big and small, leaving readers wondering if all the changes have been for the better, and what does it mean for our future.

846239	If the world were 100 people McCann, Jackie & CUshley, Aaron (ill)	HarperCollins Australia	2021	9780755503537	5-6	Imagine the world's population as 100 people: what would it look like? There are almost 8 billion humans living on Earth, but it's tricky to picture so many people! So instead, let's imagine the whole planet is a village where 100 people live -- each person representing around 80 million people in the real world. So what does our global village of 100 people look like? Are they all grown-ups? Are there more males or females? How many have black hair or blue eyes? What languages do they speak? Who can read and write? How many have access to the internet or have enough food to eat? Does everyone have access to electricity or clean water? Big ideas are broken into bitesize chunks through clever illustration and graphic design. If we focus on just 100 people, it's easier to see the things we have in common, and the things that make us different. So come and meet the people in our global village, and think about the big questions that affect us all!
